The ceremonics were opened with a prayer by Rev. J. A. tmos; then the reading of the Declaration, by T. W. Heatley; followed by an oration by Judge Price, and short speeches by J. B. Kennedy, T. W. I. II Werren See 17 The Falls City papers give accounts of the empted murder of Dr. James D. Hunter, of that ace, formerly a resident of Highland, in this Couny. A person with a wagon came for him to go to be country, pretending that his wife was sick. On the road, several other persons got into the wagon. At a signal, they commenced beating him, but he knocked two of them out of the wagon, and attempted to use his revolver, but missed his aim. While sugaged with the two, the third struck him with a ub, stunning him, when they all kicked and beat him until he was senseless, and then left him for dead, first robbing him of his pocket-book and medicine case. It was a made-up plan to get him out for the purpose of assaulting him. The cause is suppose ed to have been a dispute about a horse of the docor's that one of his assailants had taken up. Two of the men have been arrested, and committed to jail, in default of bail.

White Cloud Chow-Chow.

White Cloud drew a large crowd to her celebr. ollification would be a better term to express the observance of our national anniversary at this place. There was no speech making, no firing of cannon, no parade; in short, but little of the sort of display one ould be apt to associate with a Fourth of July celepration, and yet there was the biggest kind of a crowd, and exercises enough to fill up the whole time, from the evening of the 3d to the morning of the 5th. First, there was a grand display of fire works on Thursday evening. The proceedings on Friday may be enumerated as having consisted of music by the White Cloud Band, the reading of the Declaration by Mr. Samuel M. Brosious, dancing, swinging, pigeon and glass ball shooting, horse-racing, carriage riding, and a general regaling of the crowd on ice-cream and lemonade. An address from one of our home orators had been arranged, but from some reason he failed to come to time, and all efforts to procure a substitute were futile. The oration omitted, and saving the reading of the Declaration. the affair had few features pertaining to our nations pirth-day anniversary, but was rather a carnival of nusements, with a substratum of various sorts of levices for making money. This we do not say by way of censure, for everything connected with the affair was perfectly legitimate, and those who pat-ronized it got their money's worth of enjoyment. The exercises were held in Uit's Grove, and save that the ground was a trifle moist, owing to the recent ains, the location was in every way eligible. crowd was large, unmbering about 2,000. It was very merry, but not uncivil, and we did not hear of an an arrest during the day. The music disco by the Band was fully up to their high standard, every member acquitting himself splendidly. The chief centre of interest was perhaps the shooting tournament, the leading feature being the contest between those crack marksmen, Leon Ruggles and Fred. Erb, Jr., for a purse of \$75. The match was a close one, and exciting in the same degree as it was close. We give the score between these two gentlemen, the match being twenty-five shots each, at pigeons and glass balls. The pigeons and balls were both at 21 yards rise:

The concert of the public school scholars w success. The receipts were \$21.50. The object in view is to secure a public library, to be placed in the school, for the benefit of scholars, and perhaps all others who may want to spend a few hou ing useful instruction, more beneficial to the mind than lounging on goods boxes about stores, discussing the probability of a street fight; crowding side-walks so that ladies either have to take the middle f the street, or hear language not pleasant to a re ned mind. The proceeds of Prof. Kuehl's scientific lectures, as we understand, go to the library fund.

The 4th passed off quietly, during the day, fro the fact that no arrangements were made for a general jubilee. A good many were in town, during the day. A good many incidents always take place on the 4th. For instance, young men make their arrange-ments for buggy rides with their girls, and very frequently they get a balky horse, and if the road muddy, get stuck in the mud, and perhaps it akes bours before extricated; and if he has on light pants when he starts, they generally change color. Perhaps his girl is waiting on the bridge, while her partner is under the bridge fighting flies off his horse, trying to get out. Then an idea suggests to get down and unhitch, take the horse out, and perhaps the next day a two-horse team pulls the buggy out. Such things do happen with the best of families.
